Copy of letter No. L.W.I. 50 (2) (50) (i), dated 30th May 1950 from the Deputy Secretary to the Government of India, Ministry of Labour, New Delhi.

Subject.—Collection of Statistics of Industrial and Labour Disputes under the Industrial Statistics Act, 1942.

I am directed to invite reference to paragraph 5 of the letter from the Ministry of Labour No. LL.-10 (1), dated the 10th June 1949, forwarding the draft model Industrial Statistics (Labour) Rules for the collection of statistics of employment, attendance, wages and earnings, and hours of work in certain industries. Draft model rules for the collection of statistics of industrial and labour disputes have now been framed. Two sets of the rules are forwarded herewith for publication in the official Gazette inviting comments by the 31st July 1950. The comments which may be received by the State Government, together with their views thereon may kindly be forwarded to this Ministry by the 31st August 1950.

2. The Industrial Statistics Act, 1942, prescribes the service of individual notices on the employers. The draft model rules so framed will, therefore, require individual service of preliminary notices on the employers connected with sectors of industry mentioned in Schedule I to the Rules. In regard to the others, it will be necessary to depend on the press and the police for information as to the occurrence of a dispute on receipt of which a notice can be served upon the employer requiring him to furnish the necessary information.

3. In view of the above, it is necessary to have complete lists of the various types of establishment covered by the Schedule I to the Rules. Two copies of these lists, when ready, may kindly be forwarded to this Ministry. Two copies of the Gazette publishing the draft model rules may also kindly be forwarded.

4. Section 4 of the Industrial Statistics Act permits the State Governments to appoint more than one statistics authority for the purpose of the Act. It is considered desirable that the statistics authority appointed for the purpose of the Industrial Statistics (Labour) Rules may also be appointed for the purpose of the rules under consideration.

5. When returns under the present proposal are received, the voluntary returns of industrial disputes now being collected may be discontinued.
